President’s Transition
Dr. Jan Ziegler stated Dr. Martin Eggensperger would join BRTC on June 3, 2019. The last day for Dr. Ziegler will be June 14, 2019. This overlap will present an opportunity for updating Dr. Eggensperger on many items in progress and ongoing. Members and guests are invited to the Eddie Mae Herron Center on June 14 for the Juneteenth Celebration. The evening event will also present the opportunity to meet Dr. Eggensperger, as he has been invited as a special guest. The event will begin at 5:00 p.m.

Nursing Option
Sissy Gray stated that in a effort to offer a traditional RN path, facilities became more of an issue than anticipated for nursing classes at the Paragould Site. Ramonda Housh researched other options and determined ARNEC students from that area can go to the Paragould site using a proctor, which will establish a presence for nursing in Paragould. There are currently 16 (out of 39) RN students who have signed up to take advantage of this opportunity.

Dr. Ziegler followed up stating a grant opportunity is being sought to help with the cost of site preparation and architect fees should the board agree to the purchase of a modular building at Paragould as previously discussed. Mrs. Housh will present the proposal to the Arkansas State Board of Nursing (ASBN) to offer a traditional pathway for the Associate of Applied Science Registered Nursing degree on both sites with acceptance of the first cohort in August 2020. If grant funding does not materialize, the traditional pathway can be pulled from Paragould’s site.
RFP for Grants PCS
This item will be discussed during Executive Session.

Efficiency Initiative
Mike Greene, Priscilla Stillwell, and Alan Decker, have been chosen to study efficiency options for both sites. Examples: LED lighting, summer usage of buildings, etc.

Flood Mitigation Plan
Dr. Ziegler stated the college is nearing completion of Phase I of the plan presented by Ben DeClerk. Phase II includes the development and details of the earthen berm concept for the bidding process. The estimated cost is $1,345,000. Rhonda Stone reminded the members that not developing and implementing a flood mitigation plan will put the college at risk of higher insurance deductibles, increasing from $100,000 to $500,000 for contents and $500,000 for building per instance of damage, as well as a substantial anticipated increase in flood insurance cost. Dr. Ziegler has contacted our local legislators who have agreed to approach the Governor for funding through his discretionary funds, as well as other possible agencies.
