GCITC Childcare Facility on the Paragould Campus
Ray Noel notified members that the GCITC Childcare facility (located behind the original building on the Paragould campus) has ceased to provide services and will vacate the building by the first of September. Every effort was made to relocate the children to other childcare providers and to help the employees find new placements. Grant funds were used to build the facility (approximately 3,000 sq. ft.) which stipulated that the facility was to serve families of low to moderate income requirements. Dr. Hatcher has contacted the proper agencies to learn that BRTC can meet the legal and moral obligations of the grant and use the space for academics and academic support. Pending board approval, GCITC will maintain ownership of the building until the loan is paid in full by BRTC at which time transfer of ownership will take place. Meetings are underway with key staff members and the architect to determine the best utilization of the space as modifications will be necessary.

STUDENT AFFAIRS

Statistical Reports
Dr. Michael Sullens’ report compared Corporate and Community Education and Adult Education data for academic years 2010-2012. The total headcount for 2012 shows an increase from the previous year with a slight decrease in total contact hours. (Note: a major cause for the decrease is the significant reduction in state funding of workforce training.)
A 2010-2012 comparison of total enrollment, SSCH’s, and FTE’s was reported. Data indicates a slight decrease in each category when comparing 2012 to the previous year. A comparison of traditional vs. nontraditional credit hour students (duplicated) also shows a slight decrease. BRTC’s nontraditional student enrollment (currently 25 years of age or older) continues to be greater than the traditional student enrollment (currently 24 years of age or younger) when comparing 2012 to the previous year.

Summer I 2012 enrollment was 648 students, a decrease from the previous year enrollment of 763 students. Summer II 2012 enrollment was 541 students, an increase from the previous year enrollment of 540 students.

Fall 2012 enrollment was 1,518, a decrease from the previous year enrollment of 1,627. Pocahontas had enrollment of 1,005 students and Paragould had 513 students for Fall 2012.
