

OSHA 10-HOUR GENERAL INDUSTRY COURSE

WHO SHOULD ATTEND? The OSHA General Industry Training Course is intended for safety personnel, trainers, foremen, supervisors, architects, engineers, and management in facilities, including, but not limited to: plants, factories, manufacturing, health care, warehousing, distribution, and retail.

WHY ATTEND? OSHA Outreach Training is the principal method used to train workers in the essentials of occupational safety and health in general industry work sites. The course covers specific OSHA standards and requirements as they apply to general industry and teach safety awareness which helps in recognizing and reducing the risks of job site hazards.

WHAT YOU WILL LEARN BY ATTENDING? Supervisor's role in safety, basic accident investigation, developing a safety culture, 25 indicators of safety, 10 commandments of safety for supervisors, psychology of safety, why people do the things they do, techniques to make safety training less boring, how to develop an effective safety training program.

Taught by: Mark Howell, OSHA Authorized Outreach Trainer
